

The National Paint & Coatings Association  
and  
Atrium Environmental Health & Safety Services, LLC. Present:

# ***Lead Safe Work Practices***

Those encouraged to participate include: home (or code) inspectors, contractors undertaking renovation, repainting, or remodeling work where lead-based paint may be encountered, maintenance workers, building supervisors and landlords, professional associations, state and local municipal agencies, community and social service organizations, and do-it-yourself homeowners.

The goal of this program is to teach attendees lead-safe work practices and the strategies for implementing them. Many homes built before 1978 contain lead-based paint, so it is important that renovation, remodeling and repair activities use methods that reduce and control dust and debris created during work. Even a small amount of dust can pose a serious health risk to children and families.

## **How Do I Participate & What Do I Get?**

1. Return your registration to Deloris Ransom at the address given.
2. Attend the training and complete a brief test at the end of the session.
3. Participants who pass the test may receive a statement of completion.

Return your registration to:

**Division of Community Development  
Attn: Deloris Ransom  
Room 404  
30 Montgomery St.  
Jersey City, NJ 07302**
